

- Micro computer digital temperature indicator
- Economical energy saving
- Automatic protection for water scarcity and power disconnection
- Automatic steam pressure relief built in
- Stainless steel water tank, corrosion resistant
- 5.5 L volume
- Electronic water level control
- Power supply 240v 1 phase / 415v 3 phase
- Modern design, very compact size
- Wall hanging
- Easy to service, maintenance-friendly direct access to the water tank
- Heating elements replaceable, thermo-fuse protected
- Heating elements self-cleaning with durability and saving more energy
- Separate control unit with LED display
- Digital control panel
- External installation
- On/off control button
- LED display with pre-set timer, light switch
- Precise temperature control

Suitable For	Model	Power	Room Size L x W x H (mm)	Volume (m³)
Couple Uses	YCS-60	6.0kw/240v	1900 x 1300 x 2250	5.9
Home Uses	YCS-80	8.0kw/415v	2500 x 1900 x 2250	11.3
Big Family User	YCS-100	10.0kw/415v	3700 x 1900 x 2250	16.7
Multi user	YCS-120	12.0kw/415v	4300 x 1900 x 2250	19.4
Mini Spa Room	YCS-150	15.0kw/415v	4900 x 1900 x 2250	24.8
